

## New York Stock Market

New York, May 7.—After a day of mixed movements, in which no well defined trend was discernible, the stock market became distinctly strong in the final trading, and closed with a substantial gain for many important stocks. At the opening of the session bear traders attempted to carry further the decline of yesterday. Speculative interest again centered in the Harbinger stocks, whose heaviness in the early trading was a disturbing feature. Southern Pacific rose to 33 1/2, a new low price since 1908. That stock and Union Pacific were leaders in the late upturn, being helped by unconfirmed reports that the Union Pacific management had arranged for quick compliance with the Supreme Court's dissolution decree, and that the distribution of Union Pacific's holdings of Southern Pacific stock would be taken up by a syndicate already arranged. New York Central sold below par for the first time since 1908. Several other issues made new low records.

London bought stocks here moderately, its purchases on balance being estimated at about 10,000 shares. Traders here expected that the clearing up of the Balkan situation would be the signal for heavy repurchasing by Europe of American securities have been disappointed at the comparative smallness of the foreign demand in the last few days.

The bond market showed a distinct upward tendency. Total sales, par value, \$2,000,000. United States bonds unchanged on call.
